

#### Field 4: Assessment of status

Please tick the appropriate category to indicate the assessment of status of the species or habitat, for each country/region where appropriate, and provide a statement supporting the category selected.

	Not appropriate	Recovered	Signs of recovery	No change	Declining	Lost	Insufficient information
UK							
England							
Northern Ireland							
Scotland							
Wales							
Brief text description justifying assessment of status: (~ no more than 100 words for each country/region)							

#### Field 5: Summary statement

Please provide an overview of plan implementation, including new factors affecting the species or habitat which will accelerate or constrain progress towards meeting of the targets. Where a factor results in new action(s) please cross-reference back to the relevant numbers under Field 3 and Table B.

**The taxonomic status of *Epipactis youngiana* is uncertain, though work that will clarify the situation is virtually complete. All parties who have an interest in this species believe that this taxon will soon cease to exist. Action remains 'on hold' until a final decision has been made.**
